

# Populous World Gold Pokens

January 2019 Factset

## OVERVIEW

Populous World is producing Series 2 of Gold Poken (XAUp). Pokens are pegged-tokens, where each token is pegged to an asset class. The Series 2 XAUp is an ERC-1155 digital asset which is pegged and is equivalent to one (1) Troy Ounce of gold at the delivery date. There will be a total of 10,000 Series 2 XAUp minted and sold.

The Series 2 will be minted by Populous World and will be up for purchase immediately.

Each XAUp from Series 2 will be sold at a discount of 9% to the rate of gold price for one Troy Ounce at the date of purchase. The discount is received upfront at the time of the purchase.

The delivery date is expected to be twelve (12) months after the date of sale, where each XAUp must be exchanged for the equivalent of 'one (1) Troy Ounce of gold' during the delivery date on the Populous World platform. On the day of the delivery, the purchasers are now entitled to one Troy Ounce of gold for each XAUp.

Physical delivery\* of the gold can be arranged for the purchasers to receive the physical gold after the delivery date with 30 days notice. If no notice or an untimely notice is given, Populous World will liquidate the gold on behalf of the buyer to receive GBP Pokens on the Populous World Platform due to gold storage costs.

On January 2019

Populous World minted 10,000 Troy Oz worth of XAUp

## KEY FACTS

of 9% XAUp discount 11/2019

<b>Issuer:</b>	Populous World LTD
<b>Sale listing:</b>	Populous Exchange
<b>Series:</b>	2
<b>Volume:</b>	10,000 Troy Oz
<b>Minimum purchase:</b>	1 Troy Oz
<b>Discount:</b>	9%
<b>Token type:</b>	ERC-1155
<b>Delivery time:</b>	12 months from purchase
<b>Sale closing date:</b>	31/07/2019

## SPECIFICATIONS

XAUp is designed to be a group of non-fungible items which is in accordance to protocol EIP-1155. The ERC-1155 Crypto Item Standard allows for each Item ID to represent a new configurable token type, which may have its own total supply value and other such attributes.

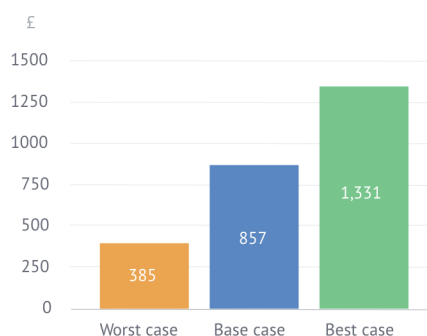

XAUp is uniquely identifiable. They are also tagged with a timestamp, which represents the date at which they were minted and offered for sale. After 12 months, users must then exchange the XAUp on the Populous World Platform.

## ACTUAL AND FORECAST OF GOLD PRICE

The discount provided is largely based on economies of scale and a fixed delivery period. The purchaser of each XAUp will be entitled to one (1) Troy Ounce of gold at the delivery date regardless of the market price of gold. Based on volatility analysis over the past five years, we modelled three scenarios with the past trend on gold price. The result is a projected 4.96% variance if there are no sharp changes in the current economic trend.

## GAIN FORECAST

Based on the gold price projection, our finding indicates that on a ten Troy Oz purchase, purchasers could potentially enjoy a discount on gold price from £385 to £1331 during the delivery date in 2019.

### Important information

This information is for promotional purposes only and is intended as an invitation to treat. This document is neither investment nor financial advice and nothing in this should be construed as such. Populous World have not considered the suitability of this purchase against your individual needs. Populous World shall not be liable for any losses as a result of reliance on information provided. The content on this publication may be changed at any time without notice. Please check with a Populous World representative if the information displayed is accurate.

\* Physical delivery of the gold will be given a quotation on delivery fees, insurance, shipping and handling costs. This can be more than the discount given initially and the costs are levied on by both Populous World and third-party providers.
